PARTNERSHIPS

Oracle Certified Advantage Partner

Components of Oracle BI Suite EE Plus

Oracle BI Interactive Dashboard

Rich, interactive pure Web dashboards that display personalized information to help guide users in effective decision making

Oracle BI Answers

A powerful ad-hoc query and analysis tool that works against a logical view of information from multiple data sources in a pure Web environment

Oracle BI Publisher

A highly scalable reporting engine capable of generating reports from multiple data sources in multiple formats via multiple delivery channels

Interactive Dashboards

Ad hoc Analysis

Proactive Detection and Alerts

Microsoft Office

Reporting & Publishing

BI Publisher

Financial Reporting

Interactive Reporting

SQR Production Reporting

Web Analysis

Common Enterprise Information Model

Oracle BI Server

OLTP & ODS Systems

Data Warehouse Data Mart

SAP, Oracle PeopleSoft, Siebel, Custom Apps

Files Excel XML

Business Process

Oracle BI Server

A highly scalable, highly efficient query and analysis server that integrates data via sophisticated query federation capabilities from multiple relational, unstructured, OLAP, and pre-packaged application sources

ORACLE

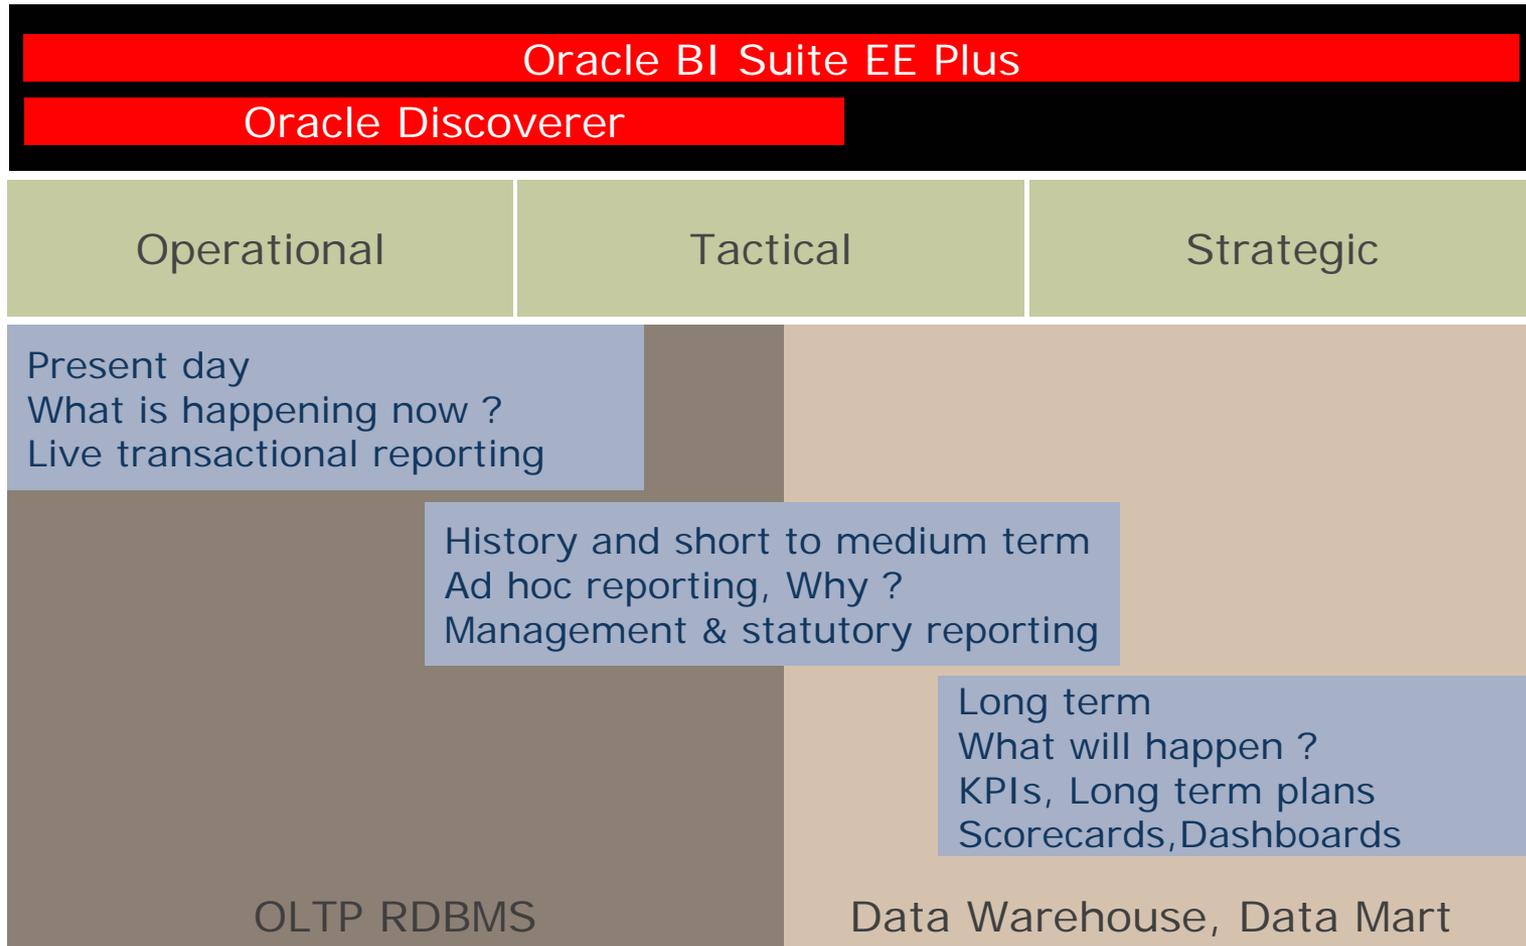

© Oracle Corporation

NOT INCLUDED

OBI EE Plus does NOT include Oracle's BI Applications.

Those are separate products, with separate pricing and additional implementation costs.

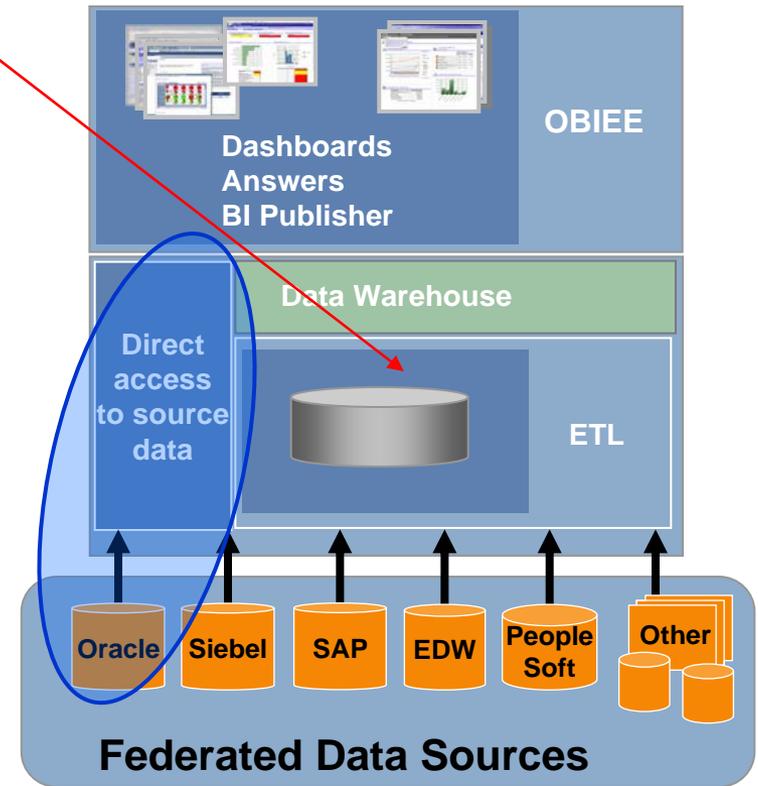

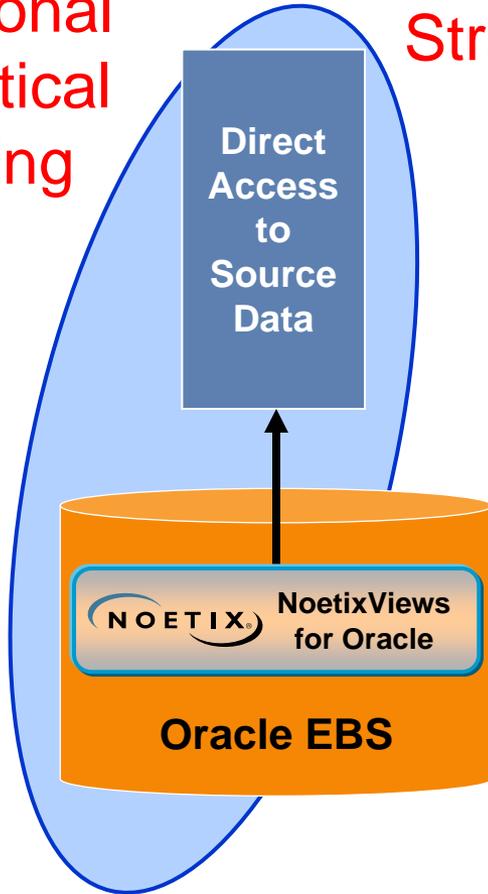

Meeting Reporting Needs with Oracle

Oracle BI Suite EE Plus and Noetix

Tactical and Strategic reporting

Operational and Tactical reporting

KEY POINT: You don't have to wait until you build a data warehouse to get reporting value from OBI EE

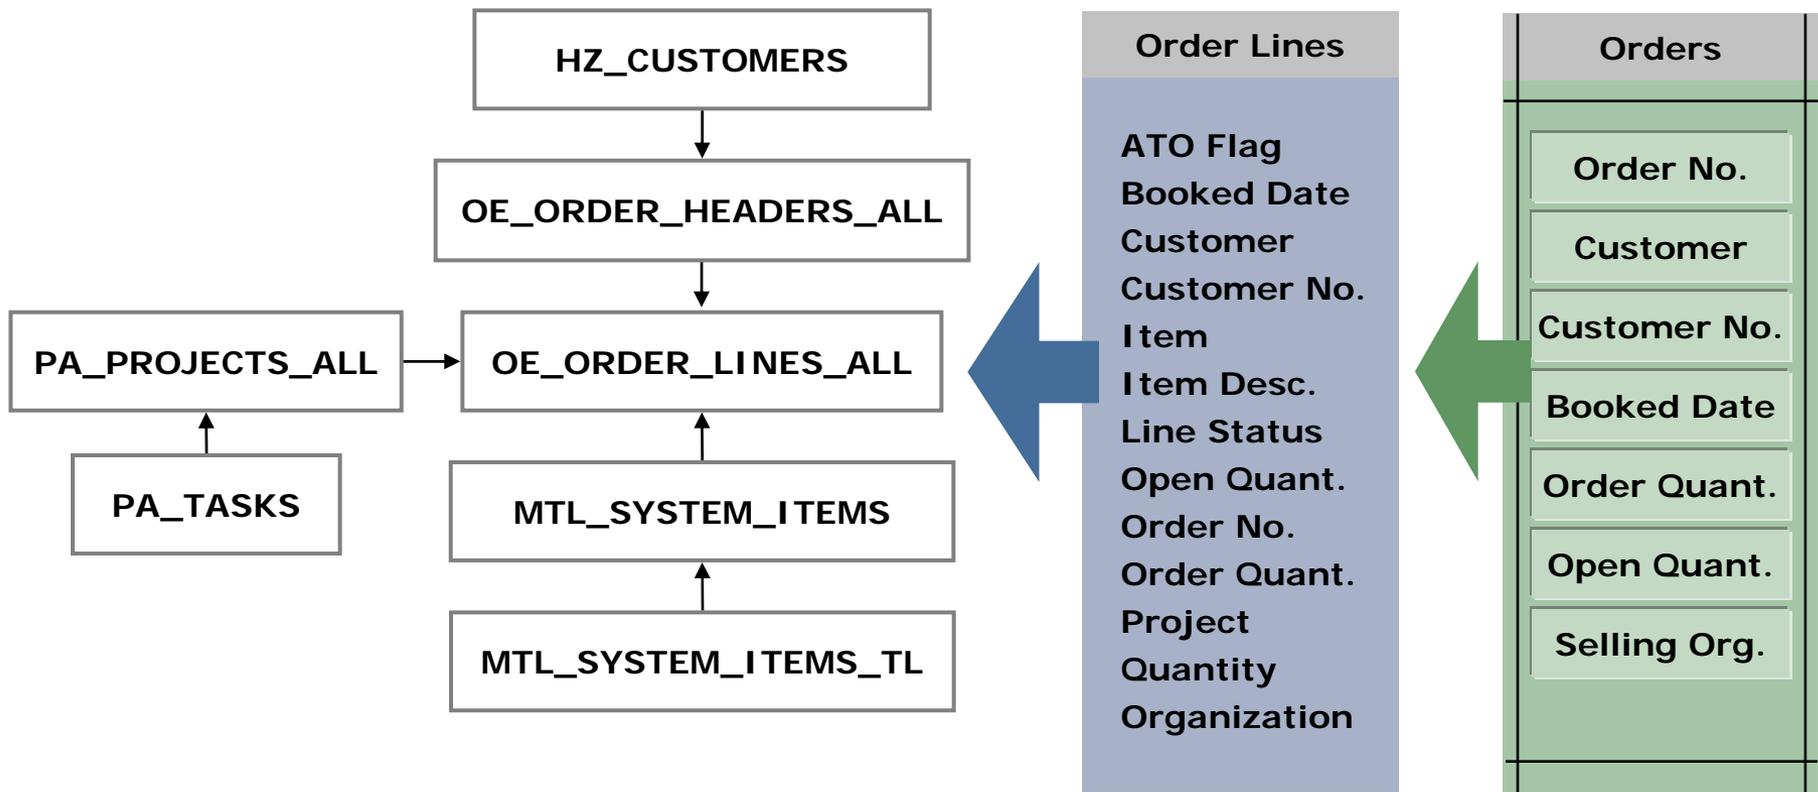

Using NoetixViews with OBI EE

How Noetix views work

Oracle database tables

Noetix view of the database

- Ad hoc query
- Report
- Extraction

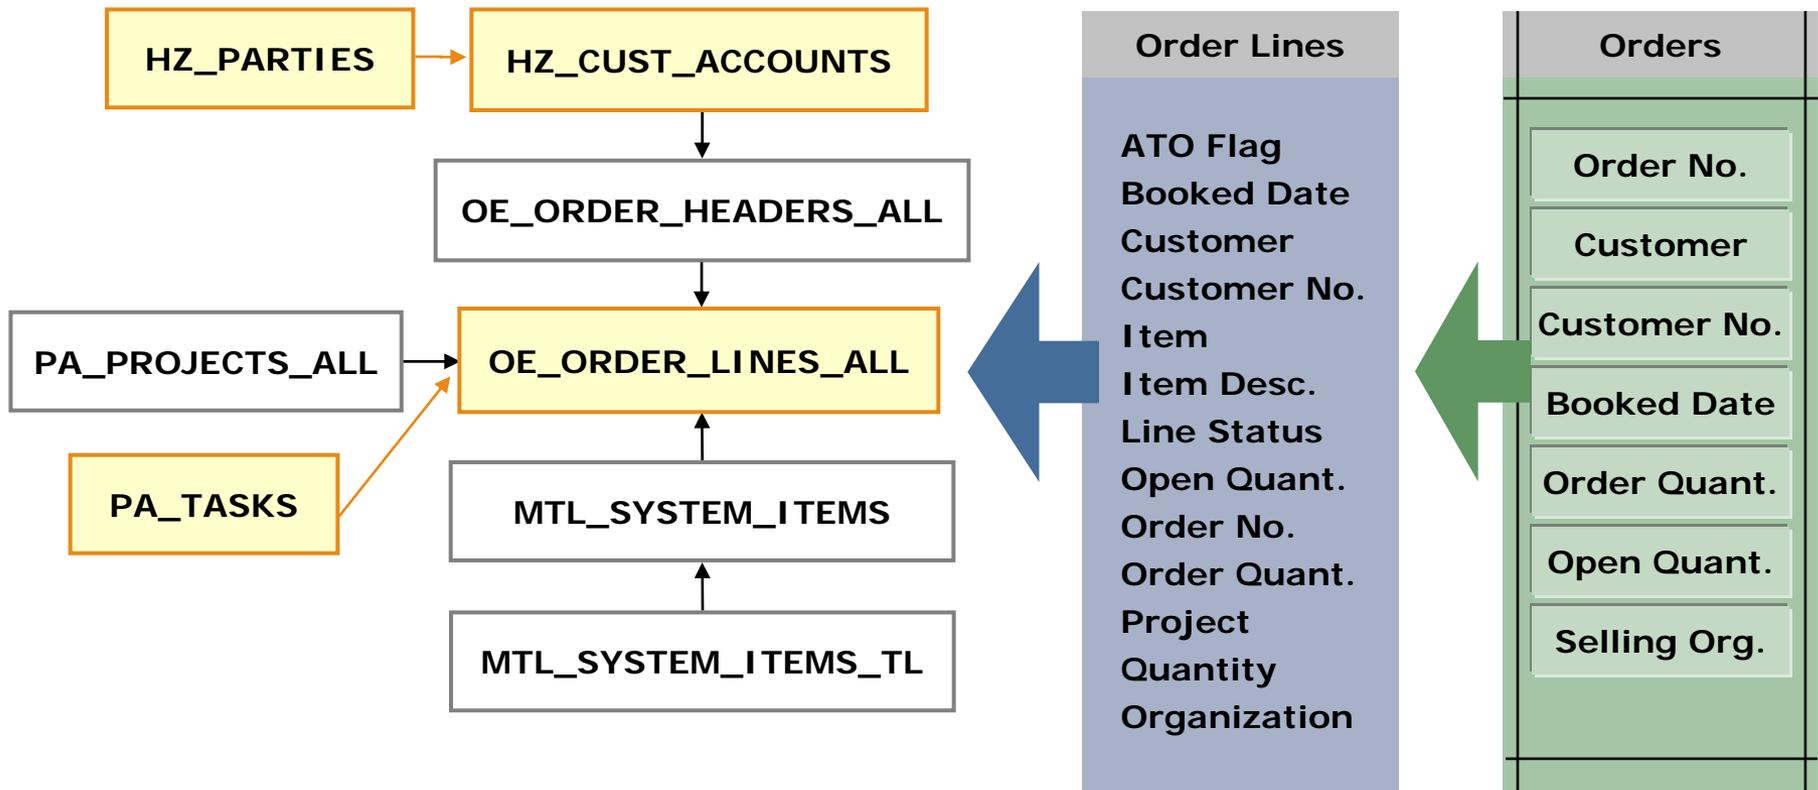

How reports are protected during upgrades

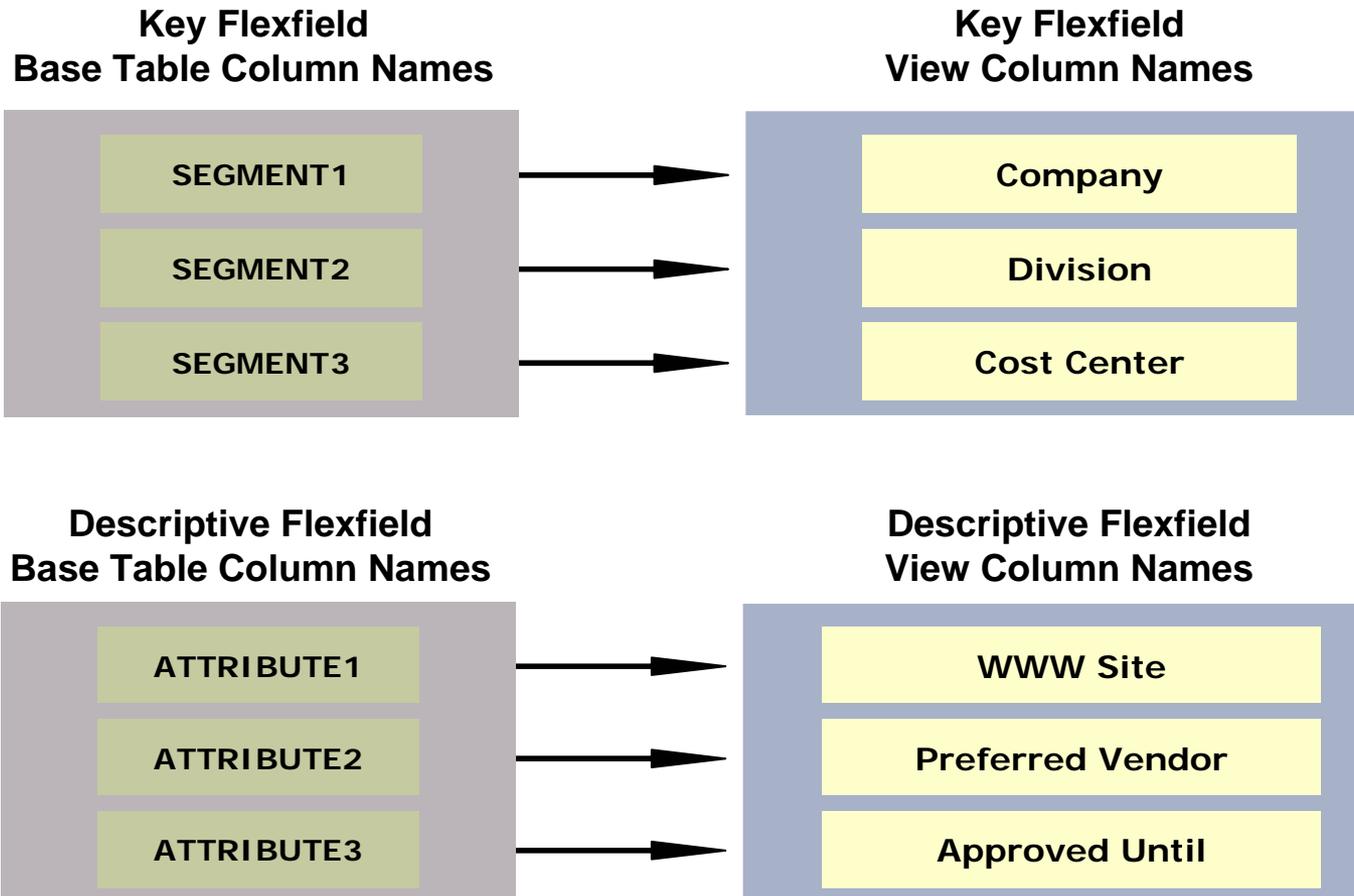

Oracle changes the database...

Noetix remaps the view...

Report doesn't break

NoetixViews translates Oracle flexfields

Payroll - Canadian Legislation	Advanced Supply Chain Planning	EBS Administration
Payroll - Australian Legislation	Advanced Supply Chain Planning	Application Object Library
Payroll - UK Legislation		

Noetix Generator for Oracle Discoverer

- Generate business areas**
- Generate folders**
- Populate folders**

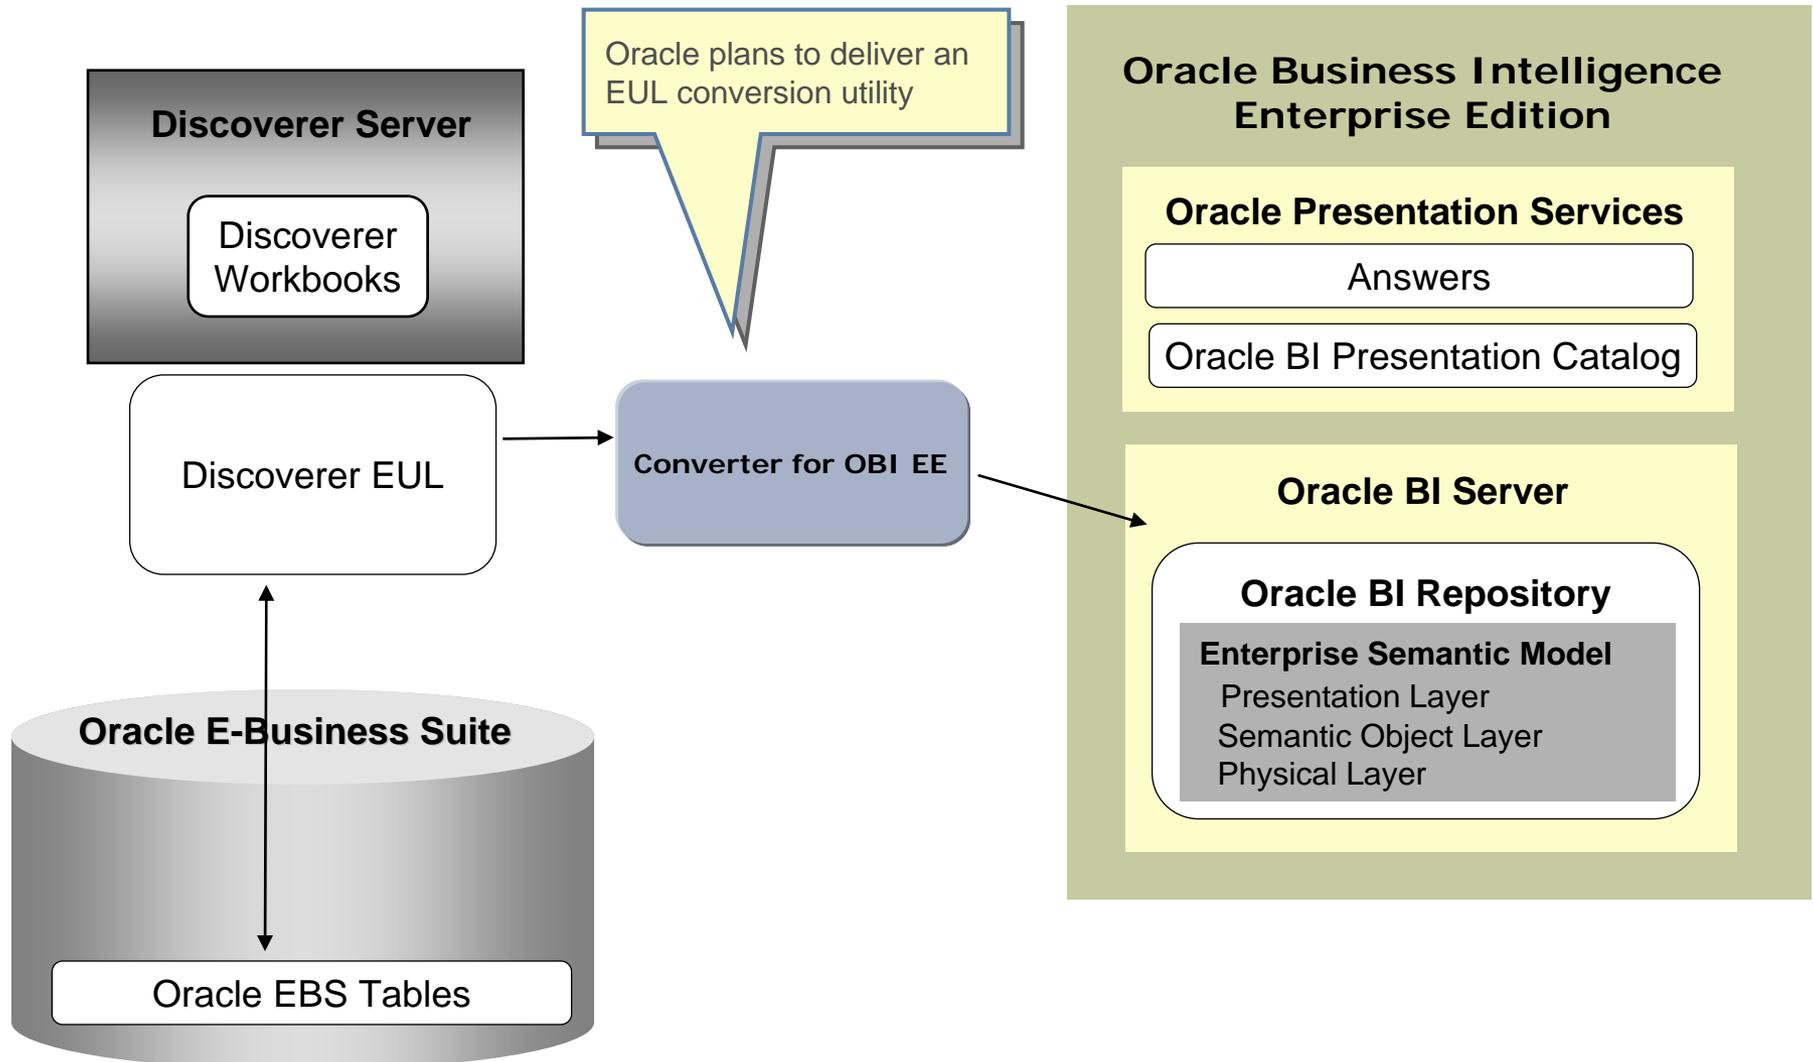

Noetix Generator for OBI EE

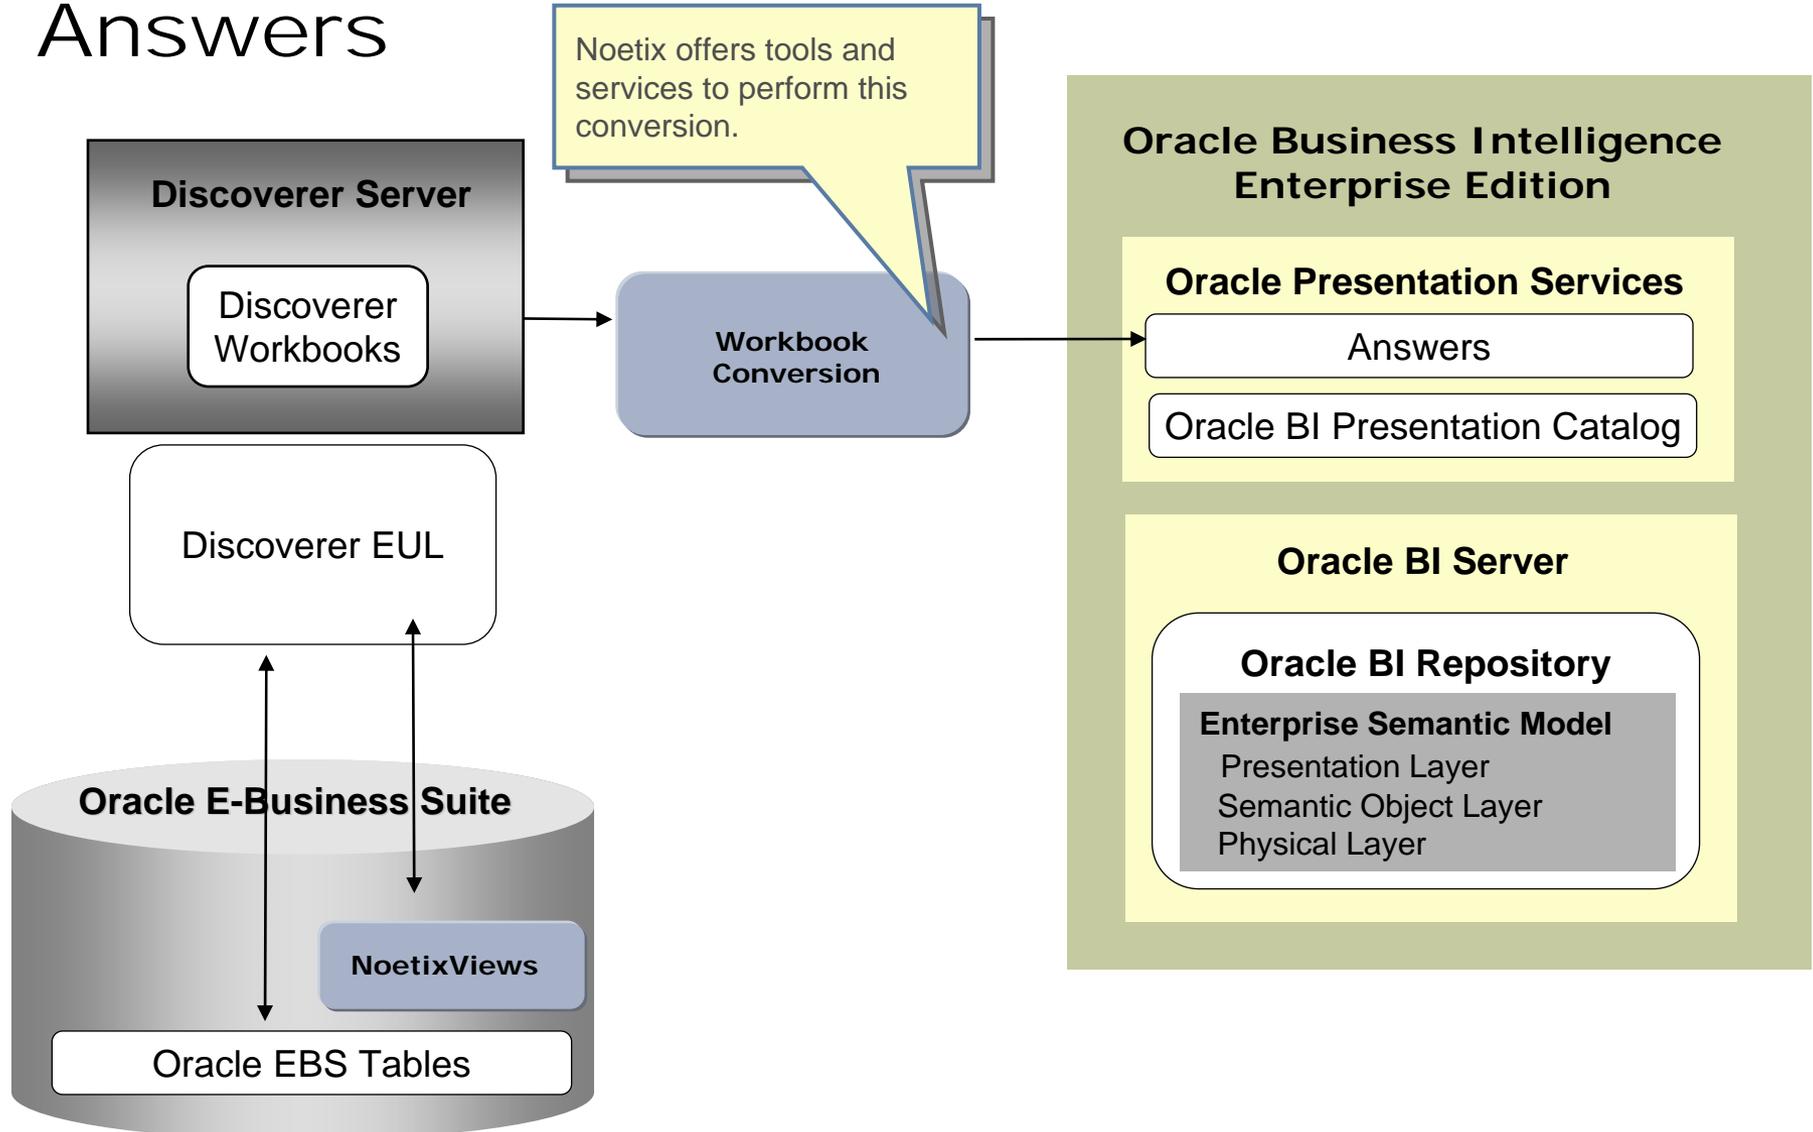

Product Demonstration

Migrating from Oracle Discoverer to Oracle BI EE

Convert Discoverer "Model" to OBI EE

Convert Discoverer Workbooks to OBIEE Answers

Summary

- OBI EE provides a powerful BI platform
- You don't need a data warehouse to use it
- You can gain immediate benefit by connecting to transaction systems
 - Get results before creating a data warehouse
 - Noetix enables that “faster time to value”
- Noetix can migrate your Discoverer reporting environment to OBI EE

Questions?

THANK YOU
