Why Do We Care

- Desupport for JInitiator has been announced
  - Should be off JInitiator prior to July 31, 2009
  - Desupport Notice: Metalink Note 552692.1
- JInitiator has known problems with Sun Java2 Standard Edition
- Desktop support with multiple JVMs is complicated
- You may want to use Linux as a client (not certified by Oracle)

Prerequisites

- Must be Autoconfig enabled
- Must be on Developer 6i Patchset 18 or higher
- If your client is running Windows Vista
  - EBS 11.5.9 CU2 with ATG RUP4
  - EBS 11.5.10 CU with ATG RUP 4
- XP SP2 or Windows 2000
  - EBS 11.5.9 or higher

Prerequisites

Browser Version	Windows Vista	Windows XP SP2	Windows 2000
Internet Explorer 7	JRE 1.6.0_03 or later	JRE 1.6.0_03 or later	Not Certified
	JRE 1.5.0_12 or later	JRE 1.5.0_12 or later	
Internet Explorer 6	Not Certified	JRE 1.6.0_03 or later	JRE 1.6.0_03 or later
		JRE 1.5.0_12 or later	JRE 1.5.0_12 or later
Firefox 2.0.x	Not Certified	JRE 1.6.0_03 or later	Not Certified
		JRE 1.5.0_12 or later	
Firefox 1.5.x	Not Certified	JRE 1.5.0_12 or later	Not Certified

Prerequisites

- Metalink Note 290807.1
- Patch Developer 6i

Installation and Configuration

- Common Interoperability Patch, 6137466
- Get Windows Offline Installation version of JRE from Sun
- Plug-Ins are all located in $COMMON_TOP/util/jinitiator with names like j2se16003.exe for JRE 6 version 1.6.0_03
- Developer 6i Patchset 18 has a forms focus bug that requires two patches, 6195758 and 5884875

Installation and Configuration

- txkSetPlugin.sh
