

Compensation Workbench Implementation at University Hospitals

Marie Medaris
Chetan Jain

OAUG Collaborate '08

Agenda

- About University Hospitals and Solbourne
- UH Oracle Environment
- Key Drivers for CWB
- Project Scope and Team
- Plans and Options
- Plan Design and Details
- Tips and Gotchas

About University Hospitals

- 2nd largest employer in Northeast Ohio
- Nine entities (including Community Hospitals, Home Health and Physician Practices)
- 14,000+ Employees
- 1,000+ Supervisor/Managers/Directors
- University Hospitals Rainbow Babies & Children's Hospitals has ranked best in the Midwest and #5 in the country in US News & World Report's

About Solbourne

- National Consulting Firm Headquartered in Boulder, CO
- Over 130 Employees
- Oracle Family of Applications Focused Since 1994
 - Fusion Middleware Technology
 - E-Business Suite
 - PeopleSoft Enterprise
 - Education and Change Management
- Oracle Certified Advantage Partner – Highest Level
- Over 260 Oracle Applications Projects – Commercial and Public Sector

UH Oracle Environment

- Application version 11.5.10
- HRMS Family Pack K RUP 2
- Using HR, Payroll, OAB, Self-Service HR, iRecruitment, OLM
- 16 additional Oracle products related to Financials and Supply Chain suite of applications

Key Drivers for CWB

- The previous compensation process was manual, spreadsheet based
- Six compensation plans across a population of 14,000+ employees, and 1,000+ managers required thousands of spreadsheets
- Need for an automated process to save thousands of man hours spent on making the manual process work
- Key emphasis on “Pay for Performance” culture

Project Scope

- Big bang approach for implementation of seven Compensation Workbench plans – Three plans for Salary Increase, and Four plans for Bonuses
- Complex Eligibility and Rate Calculations for most of the plans
- Performance Ratings given in CWB on the same worksheet as the increase

Project Scope

- Use of Dynamic Columns in most of the plans for calculations, conditions etc.
- Worksheets heavily personalized by plan
- Supervisor Hierarchy for approvals
- Letter configuration for most plans

Project Team

- UH Project Sponsor
- Project Manager from UH
- UH Compensation and Benefits Manager
- UH Compensation Analysts – Four (4)
- UH Applications Specialist
- Solbourne Project Manager/CWB Functional Consultant
- Solbourne Technical Consultant

Salary Plans

- Pay for Performance for Non-management employees
- Management Pay for Performance
- Proficiency Skills Program (PSP)

Bonus Plans

- Special Performance Award (SPA)
- Retention Bonus
- Per Visit Productivity Bonus

Options

Management Pay for Performance

- Options
 - Merit
 - Market Adjustment
 - Management Incentive Plan

Pay for Performance

- Options
 - Merit
 - Market Adjustment

Plan Design

Pay for Performance

- Annual salary increase plan for Management employees
- Comprises components like Merit, and Market Adjustment
- Management PFP plan also comprises a stand alone bonus component for MIP
- Budgets used
- % of Eligible Salary used for merit and market adjustment computations

Design Discussions

- Two plans for PFP or one?
- A separate plan for Management Incentive plan, or an option within Management Pay for Performance plan?
- Lump Sum Option for PFP?
- Hourly Budgets or Annual Budgets?
- What Performance Rating Type to use?
- How many tasks to use in CWB?
- What columns to display in worksheet?

Design Discussions

- What capabilities to give to the managers?
- Validations, conditions, and calculations in CWB worksheets
- Use Views capability or not?
- Column Titles and Sequence in CWB worksheets

Eligibility

- Pay for Performance
 - Exclude employees from certain GREs
 - Exclude certain jobs
 - Exclude certain position titles (Position Title is one of the segments of the Position KFF structure at UH)
 - Exclude employees eligible for PSP program (PSP eligibility is captured in an SIT at the employee level)
 - Exclude Bargaining Unit employees
 - Exclude certain Employment Categories
 - Exclude employees based on seniority date requirement (stored in Person level DFF attribute)

Eligibility Profiles

- Standard ELPROs for
 - Exclude employees from certain GREs
 - Exclude certain jobs
 - Exclude Bargaining Unit employees
 - Exclude certain Employment Categories
- Creative solutions for ELPRO rules for
 - Exclude certain position titles
 - Exclude PSP eligible employees (from SIT)
 - Exclude employees based on seniority date (from DFF)

Standard ELPRO

Plan Design

Proficiency Skills Program

- Salary plan for nurses
- Performance Rating used to capture “level” for the nurses
- Eligibility based on Person level SIT segment value
- Salary rate is a factor of several factors, including
 - GRE
 - Position
 - Performance Rating
 - Salary Basis
 - Shift

Design Discussions

- How to factor in a run time performance rating into salary rate calculation?
- Need to replace the current salary with the new worksheet amount as opposed to adding it
- Budgets or no budgets?
- Are managers allowed to make changes?
- Are approvals needed?

Project Highlights

- User hooks and dynamic columns used extensively and with a lot of success
- Great success with plan rollouts
- Effective training model
- Super users and end users very comfortable with the system
- Great feedback received from managers (Manager Feedback report utilized for measuring feedback)
- Efficiency in compensation process for everyone

Tips and Gotchas

- Use Flat Amount calculation method in Standard Rates WB, DB, WA activity types even while storing Budgets as Percentage of Eligible Salary
- Note “Enrollment or Availability Period” is different from “Self-Service Update Period”
- Personalizations in worksheets can be done by plans, but any other personalizations on the CWB main page cannot be done by plans (but at responsibility, function or site level)

Tips and Gotchas

- Recommended Amount activity type works really well in CWB worksheets, and provides icons for managers to use for min, max and target amounts
- Utilize Information and Links section for URLs applicable to your business needs
- Custom messages can be configured for Mass Notification functionality for target population – Use Advanced Benefits application for this
- Pay attention to the sequence numbers used for mathematical calculations and conditions in dynamic columns

Tips and Gotchas

- Prepare a consolidated spreadsheet with lists of all the columns used for different CWB plans, and their labels
- Be aware of the number and types of dynamic columns used
- Use Preferences for date tracking functionality in CWB
- Use Forms Toolbar – Text Form functionality in .rtf template to format the amounts on Employee Statements to have separators and decimal values (See Metalink Note 463041.1 for details)

Tips and Gotchas

- Four types of budget distribution options available – Automatic, Manager Roll Down, Employee Rollup, Administrative Modeling
- Consider combining related CWB tasks to reduce the number of tasks
- Consider using Views to avoid horizontal scrolling in CWB spreadsheet
- Employee Administration link can be utilized for backing out and reprocessing CWB plans for specific employees

Metalink Notes

- 399879.1 - CWB Overview Viewlets
- 314378.1 - Patch List
- 301163.1, 301160.1, 302084.1 – Sample Setup
- 311702.1 - Employee Statement Setup
- 294465.1 -Various other links
